

EUROCAE High-Level Meeting

27.04.2018

Brussels

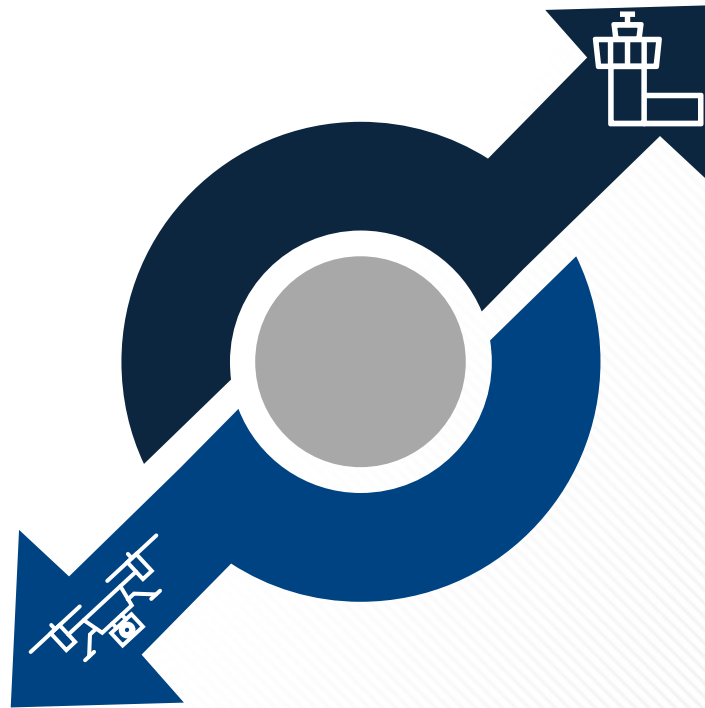

with you, all the way.

Unmanned Air Vehicles Traffic Management

UTM as disruptor in system

- UAVs will affect the traditional ATM system

- New/existing technology
- High-level, medium-level, low-level UAVs
- Cooperative/non-cooperative UAVs

Market competition?

Is there a market?

Do the SES targets
incentivise the right
things?

Pilot trial in Geneva
in September 2017

No monopolies necessary

Registration, airspace
management, flight planning,
geofencing and surveillance

EUROCAE

UTM needs standards

Who should take the lead here?

Infrastructure and Virtualisation

Interface to ATM
